

Assistant Professor

The Molecular and Behavioral Neuroscience Institute (MBNI) at the University of Michigan Medical School is seeking applicants to fill a tenure-track faculty position at the Assistant Professor level. Although all applications will be considered, we are especially interested in systems level neuroscientists who are applying molecular, cellular and genetic techniques to investigate mechanisms underlying synaptic plasticity, neural circuits, behavior or disease. We seek highly motivated and interactive individuals that will establish an internationally recognized, independently funded research program. Applicants must have a Ph.D. and/or M.D. and a strong record of research accomplishments. For more information on the MBNI see: <http://www.mbni.med.umich.edu/mbni/index.html>.

Interested candidates should send a cover letter, curriculum vitae and a 3-5 page statement of current and future research directions as a single PDF to mbni.recruitment.2016@umich.edu. Candidates should also arrange to have 3 letters of recommendation sent as PDFs to the above email address.

Applications and letters of recommendation will be considered up until November 15, 2016, and initial interviews will begin in December 2016, with an anticipated start date in the fall of 2017. Women and underrepresented minorities are encouraged to apply. The University of Michigan is supportive of the needs of dual career couples and is an equal opportunity, affirmative action employer.

Job posting ID: 132710
