

Faculty –Open Rank Assistant/Associate/Full Professor
Joseph Flaherty Chair in Child and Adolescent Psychiatry
University of Illinois at Chicago (UIC)

Department of Psychiatry The Department of Psychiatry Child and Adolescent Division is seeking an established clinician scientist. Faculty will be expected to transfer, sustain and grow an active competitively-funded research program in Child and Adolescent Psychiatry and be board certified or clinically licensed in their respective discipline. The successful candidate will have an MD and/or PhD in a relevant area of psychiatry, psychology, or biomedical sciences, and be an established investigator with a track record of active funding. The department has a very strong basic and clinical research program in brain disorders and clinical translational research, with particular strength and focus in neuroscience of addiction, lifespan mood and anxiety disorders, and post-traumatic stress disorder as sources of collaboration and synergy. Resources include a P50 NIH funded Center focused on the epigenetics of alcohol abuse, a federally-funded health services center and several interlocking investigator initiated grants (R01) in neuroimaging, cognitive neuroscience and clinical trials. The Child and Adolescent Division has active research in mood disorders, post-traumatic and anxiety disorders, autism spectrum disorders, and school and community prevention. Clinical programs include embedded care in the pediatric clinic, multiple subspecialty clinics, and two established community based systems of care model programs, one providing consultation to primary care physicians state-wide and the other providing comprehensive mental health care support for children and adolescents in collaboration with Department of Children and Family Services.

Research expectations: The candidate will pursue clinical and/or translational research broadly within child and adolescent psychiatry and mental health.

The clinician scientist will have an MD, MD/PhD, or PhD, and be eligible or Board Certified in Child and Adolescent Psychiatry/Psychology, and eligible or licensed in Illinois. He/she will hold the endowed Joseph Flaherty Professorship in the department of psychiatry and play a major role in further developing translational research in the child and adolescent psychiatry division. There will be an attractive start-up package for the optimal candidate. The hire will be expected to include some teaching and/or clinical care, ideally including clinical care within their research program area of expertise. Inquiries and requests for more information may be directed to edcook@uic.edu. For full consideration, applicants must apply online at <http://jobs.uic.edu> and reference job ID #85060 and submit a CV and cover letter by November 1, 2017.

The University of Illinois at Chicago is an Equal Opportunity, Affirmative Action employer. Minorities, women, veterans and individuals with disabilities are encouraged to apply.

The University of Illinois may conduct background checks on all job candidates upon acceptance of a contingent offer. Background checks will be performed in compliance with the Fair Credit Reporting Act.
