

Postdoctoral Position | Department of Psychiatry | Mood and Personality Disorders Program | Icahn School of Medicine at Mount Sinai | New York City

The Mood and Personality Disorders Program Lab, directed by Professor Harold W. Koenigsberg, at the Icahn School of Medicine at Mount Sinai in New York City is seeking a full-time Postdoctoral Fellow to begin in Fall or Winter of 2016 (starting date negotiable) to participate in an NIMH funded fMRI imaging study of emotion regulation across the Affective Instability Spectrum, in healthy individuals and in those with mood and personality disorders. The successful candidate will have the opportunity to join at the beginning of a 5-year R01 grant and will have opportunities to develop new projects as well.

Successful applicants will have completed a PhD in psychology, neuroscience or a related field and have a strong publication record that includes neuroimaging studies, preferably with a focus on using fMRI and psychophysiology to examine emotion regulation and emotion experience and their relationship to behavioral and cognitive function. Candidates with substantial prior experience with advanced MRI methods (task-related and resting-state functional connectivity, MVPA / RSA), concomitant psychophysiological and eye-tracking measures, and single and multilevel moderation/mediation analysis are uniquely attractive. Strong technical skills are required, including competence in task implementation, pre-processing and analyzing imaging data. Expertise and coding ability in relevant software such as Matlab, SPM, NeuroElf, SPSS, and E-Prime is highly desirable. Excellent communication skills and the ability to assist in training lab personnel are essential. This position affords the opportunity to work with the outstanding research dedicated imaging resources and faculty of the Mount Sinai Translational Molecular and Imaging Institute (TMII) at Mount Sinai, which include a 3T Siemens, a 3T MR/PET Siemens, and a 7T Siemens whole body scanner.

Interested candidates should send a cover letter and CV along with a list of 3 references to Dr. Koenigsberg at [Harold.Koenigsberg@mssm.edu](mailto:Harold.Koenigsberg@mssm.edu).

Harold W. Koenigsberg, MD  
Professor of Psychiatry  
Director, Mood and Personality Disorders Program  
Icahn School of Medicine at Mount Sinai  
New York, NY

*Mount Sinai Medical Center is an equal opportunity/affirmative action employer. We recognize the power and importance of a diverse employee population and strongly encourage applicants with various experiences and backgrounds.*
