

Tenure-track faculty position in Psychiatry and Neuroscience at UNC-Chapel Hill

The Department of Psychiatry and the Neuroscience Center at the University of North Carolina at Chapel Hill invite applications for a tenure-track/tenure-eligible faculty position. The successful candidate will be expected to develop an innovative externally-funded research program directed at uncovering neuronal mechanisms that underlie neuropsychiatric disease states. Applicants with experience in neural recording and circuit manipulation techniques, and/or computational approaches applied to behaviors in animal model systems are especially encouraged to apply.

Both the Department of Psychiatry (<http://www.med.unc.edu/psych>) and the UNC Neuroscience Center (<http://www.med.unc.edu/neuroscience>) provide outstanding environments for ground breaking research and career development. The UNC Neuroscience community is composed of well-funded, and productive labs whose research programs are dramatically enhanced through collaboration with each other. UNC also supports an outstanding array of state-of-the-art core facilities for neuroscience research.

Applicants should have a PhD, MD, or MD/PhD degree and postdoctoral training. Applicants should apply online at <https://unc.peopleadmin.com/postings/83728> and submit a cover letter, curriculum vitae, research statement, and names and contact information for three references.
