University of Chicago

NIDA Pre-Doctoral and Post-Doctoral Training Opportunities
http://voices.uchicago.edu/addictiont32/

The University of Chicago announces openings for pre- and post-doctoral trainees in the biological basis of substance abuse. Participating faculty include both preclinical and clinical addiction researchers from the Departments of Neurobiology **(Xiaoxi Zhuang, Bill Green**), Anesthesia and Critical Care (**Dan McGehee, Ming Xu**), Psychiatry and Behavioral Science (**Harriet de Wit, Andrea King, Jon Grant**), Psychology (**Dave Gallo**), Public Health Sciences (**Ben Lahey, Don Hedeker**) and the School for Social Service Administration (**Harold Pollack**). The University of Chicago is a highly collaborative research institution with a long history of commitment to addiction research.

The NIDA Training Program at the University of Chicago offers a unique interdisciplinary training environment. Active participating faculty conduct research in a wide range of areas, from molecular and behavioral to epidemiological and treatment research. Trainees have opportunities to engage in experiences beyond their primary research projects through seminars, internship programs, co-mentorship opportunities and interactions with visiting scientists. The University of Chicago offers a lively cross-disciplinary intellectual environment that includes a new Neuroscience Institute, core resources for neurochemical and genetic analysis, a Social Neuroscience Center, Clinical Research Center, human and animal behavioral laboratories, a drug abuse treatment program and ongoing longitudinal substance abuse related studies.

Predoctoral candidates should apply in Sept through the Committee on Neurobiology, and identify a potential faculty mentor. http://neuroscience.uchicago.edu/graduate-training/neurobiology Direct questions about pre-doctoral training to neurograd@uchicago.edu

Post-doctoral candidates should either directly contact the faculty member with whom they wish to work or submit a cover letter and curriculum vitae to Elena Rizzo <erizzo@uchicago.edu>. Post-doctoral appointments are usually for two years. Applicants must be US citizens or permanent residents.
