

Financial Relationships

Definition of Financial Relationship...

Financial relationships are those relationships in which the individual benefits by receiving a salary, royalty, intellectual property rights, consulting fee, honoraria for promotional speakers' bureau, ownership interest (e.g. stocks, stock options or other ownership interest, excluding diversified mutual funds), or other financial benefit. Financial benefits are usually associated with roles such as employment, management position, independent contractor (including contracted research), consulting, speaking and teaching, membership on advisory committees or review panels, board membership, and other activities from which remuneration is received, or expected. ACCME considered relationships of the person involved in the CME activity to include financial relationships of a spouse or partner.

Contracted research includes research funding where the institution gets the grant and manages the fund and the person is the principal or named investigator on the grant.

There is no minimum dollar amount for relationships.

Definition of Commercial Interest...

A *commercial interest* is any entity producing, marketing, re-selling, or distributing health care goods or services consumed by, or used on, patients. Providers of clinical service directly to patients are not commercial interests – unless the provider of clinical service is owned, or controlled, by a commercial interest. The following are not commercial interests:

- 501-C Non-profit organizations that do not advocate for commercial interests
- Government organizations
- Non-health care related companies
- Liability insurance providers
- Health insurance providers
- Group medical practices
- For-profit hospitals
- For-profit rehabilitation centers
- For-profit nursing homes
- Blood banks
- Diagnostic laboratories
