Postdoctoral Fellowships Available
NIDA T32 Institutional Training Grant
Center for Addiction Research
University of Texas Medical Branch (UTMB), Galveston, Texas

Outstanding individuals are sought for interdisciplinary Postdoctoral Fellow positions supported by a NIDA-funded T32 institutional training grant held by the Center for Addiction Research at the University of Texas Medical Branch (UTMB), Galveston, TX (https://www.utmb.edu/car/education-training/t32-training-program). Research opportunities are available in the laboratories of ~20 outstanding faculty members with research interests spanning basic, clinical and translational initiatives focused on the neural bases of addiction, drug discovery and medications development for substance use disorder, as well as the medical consequences of addiction. For more information, go to https://www.utmb.edu/car/education-training/t32-training-program.

Applicants must hold a doctoral degree at the time the fellowship begins and be a U.S. citizen or permanent resident. Candidates with a Ph.D. in neuroscience, neuropharmacology, molecular or cell biology with experience in neuronal or brain slice culture, in vivo neurochemistry or behavioral pharmacology are encouraged to apply. Positions are also available for candidates who hold a Ph.D. in chemistry/pharmacology interested in conducting translational research. Fellows will be mentored to facilitate transition to independent research careers by emphasizing the acquisition of suitable laboratory, writing, grantsmanship, public speaking, teaching and interpersonal skills. Send an email of interest along with a PDF that includes a current curriculum vitae, a statement of your research and career goals, two publications, and a list of three references to: Ms. Kirsty Foss (klfoss@utmb.edu). Applications are being accepted continually.

UTMB is an equal opportunity, affirmative action institution which proudly values diversity. Candidates of all backgrounds are encouraged to apply.
