

The Department of Physiology/Pharmacology at Wake Forest School of Medicine (<https://school.wakehealth.edu/Departments/Physiology-and-Pharmacology>) is currently recruiting a tenure track faculty member at the Assistant, Associate or Professor level. Priority will be given to candidates pursuing human or animal research focused on alcohol/substance use disorders or comorbid conditions. Research approaches of interest include brain imaging, molecular and cellular neuroscience, and translational models of behavior and cognition. Wake Forest and the Department provide an extremely collaborative and collegial environment with opportunities to interact with highly successful faculty who have strengths in human and animal research directed at addiction, neurological and psychiatric disease, pain, and cognition.

Wake Forest Baptist Medical Center is an affirmative action and equal opportunity employer with a strong commitment to achieving diversity among its faculty and staff.

Interested candidates should send a curriculum vitae and a personal statement of research interests to Recruitment Committee Chair Jeff Weiner ([jweiner@wakehealth.edu](mailto:jweiner@wakehealth.edu)) or Department Chair Sara Jones ([srjones@wakehealth.edu](mailto:srjones@wakehealth.edu)).
