

**EMORY UNIVERSITY
ROLLINS SCHOOL OF PUBLIC HEALTH
DEPARTMENT OF BIOSTATISTICS AND BIOINFORMATICS
OPEN RANK FACULTY POSITION IN BRAIN HEALTH**

The Department of Biostatistics and Bioinformatics at the Rollins School of Public Health of Emory University (<https://www.sph.emory.edu/departments/bios/index.html>) is recruiting a clinical research-track faculty member to collaborate on multidisciplinary studies at the Emory Brain Health Center.

Academic rank will be commensurate with credentials and experience. Responsibilities associated with this position include collaborative research, teaching, and mentoring graduate students, trainees and fellows.

The Department of Biostatistics and Bioinformatics includes 35 primary faculty members currently supported by a wide range of external funding, as Principal Investigators, Core Directors, and Co-investigators. Faculty engage in methodological and collaborative research in a broad array of public health focus areas. The department participates in the Georgia Clinical and Translational Science Alliance, serves as the Data Coordinating Center for several NIH clinical trials, and operates the Biostatistics Collaborative Core. The department offers a doctoral graduate program in Biostatistics from the Laney Graduate School of Arts and Science and master's degree programs in Biostatistics from the Rollins School of Public Health.

The Emory Brain Health Center is a world renowned, transformative center bringing together more than 400 experts subspecialized in every type of brain condition. Unlike any other health care system in the country, the Emory Brain Health Center combines five brain health specialties: neurology, neurosurgery, psychiatry & behavioral sciences, rehabilitation medicine, and sleep medicine under one roof.

Requirements: Doctoral degree in Biostatistics, Statistics, or a related field; strong record of or high potential for scientific collaborative research and graduate level teaching; excellent oral and written communication skills. Experience in multidisciplinary brain health research is preferred.

Applicants **must apply to the job posting** and upload a cover letter, a statement of research interests, and a complete curriculum vitae. Please arrange three reference letters to be uploaded to the same website. The website is <https://faculty-emory.icims.com/jobs/73280/job>. For questions, please contact Mary Abosi (mabosi@emory.edu).

Formal review of applications will begin August 15, 2021 and continue until the position is filled. Successful candidates must be authorized to work in the United States.

Emory University is committed to Inclusion and equity in the recruitment and retention of faculty. The university diligently supports the training of historically underrepresented and underserved communities. We welcome candidates who can contribute to the diversity and excellence of our academic community. Emory University is an equal employment opportunity and affirmative action employer. Women, minorities, people with disabilities and veterans are strongly encouraged to apply.
