

**Title:** Assistant/Associate Professor in Clinical Addiction Science

**Apply at Careers at UF:** <https://explore.jobs.ufl.edu/en-us/job/519357/assistantassociate-professor-in-addiction-science>

### Position Summary:

The [Department of Psychiatry](#) at the University of Florida (UF), College of Medicine in Gainesville, Florida is seeking an Assistant or Associate Professor in Clinical Addiction Science. The position is a 12-month, full-time (1.0 FTE), non-tenured or tenured track faculty position, based on history of and/or potential for NIH or equivalent external funding. The position is expected to address research and teaching needs. Clinical duties are not expected to be a component of the position.

The department is seeking a dynamic individual with demonstrated potential for cutting-edge clinical research and a strong publication record in the area of addiction science. The applicant should possess experience in clinical addiction science and specific skills in the study of lifespan trajectories, psychiatric and medical comorbidities, and/or the application of large data sets to inform science, practice, and policy. The successful candidate must be able to work effectively with multi-disciplinary teams and diverse populations. Addiction faculty in the department are engaged in UF and national collaborations that afford rich opportunities for career development. As a faculty member in the College of Medicine, the candidate will also contribute to its education mission by participating in graduate and/or medical education. Finally, the successful candidate must be willing to engage in service at the level of the department, college, and larger profession and demonstrate a strong commitment to issues of diversity, equity, and inclusion.

### JOB QUALIFICATIONS

Eligible applicants require a Ph.D., or equivalent degree, with postdoctoral experience (3-5 years) including work in clinical addiction science whether in psychology (cognitive, developmental, clinical), neuroscience, or a related field. Preference may be given to candidates with demonstrated expertise in the analysis and application of large databases. Documented evidence of productivity based on publications in appropriate peer-reviewed journals and scientific presentations are requisite. Successful competition for and/or evidence of a high probability for conduct of an externally funded program of research is also required. Evidence of effective mentoring and collegial interactions with scientific and clinical colleagues will also be important considerations.

### ABOUT THE UNIVERSITY OF FLORIDA (UF), COLLEGE OF MEDICINE
