Clinical Trials Psychiatrist  
Department of Psychiatry

Job Overview
As one of the oldest medical schools in the country, the UC College of Medicine has a reputation for training best-in-class health care professionals and developing cutting-edge procedures and research that improves the health and clinical care of patients.

The Department of Psychiatry and Behavioral Neuroscience is dedicated to high quality medical student and resident education, excellence in patient care, and advancing the science in psychiatry and behavioral neurosciences through clinical trials and ongoing collaborative research. The department supports clinical care and career development in multiple disciplines, including general psychiatry, addiction psychiatry, forensic psychiatry, consultation-liaison psychiatry, geriatric psychiatry, and neuromodulation including electroconvulsive therapy and transcranial magnetic stimulation.

The College of Medicine, Department of Psychiatry and Behavioral Neuroscience is recruiting a Psychiatrist with clinical research experience, including conducting clinical trials in women’s mental health, geriatric psychiatry, and/or psychotic disorders. The position is available at the Assistant, Associate, or Professor level. The final rank and title will be commensurate with the experience and professional accomplishments of the selected applicant.

A successful candidate will be expected to contribute to the teaching and mentoring of medical student and resident education, excellence in patient care, and advancing the science in psychiatry and behavioral neurosciences through clinical trials and ongoing collaborative research. Our Department supports clinical care and career development in multiple disciplines.

Essential Functions
Responsibilities will include:

- A combination of direct patient care in the outpatient and/or inpatient setting.
- Teaching of medical students, residents, and fellows.
- Clinical research at various UC Health facilities, hospitals, and other local health care systems.
- Additional opportunities for career development include administrative and leadership roles, participation in quality improvement, peer supervision, and formal mentorship.

Minimum Qualifications
Prior to effective date of appointment, must have all of the following:

- MD/DO or equivalent degree
- Ohio Medical License
- Board eligible or board certified in Psychiatry
