

Faculty positions are now available at the Frances and Kenneth Eisenberg and Family Depression Center at the University of Michigan.

Established in 2001, our Center is the first of its kind and is devoted entirely to bringing depression into the mainstream of medical research, translational care, education, and public policy. Our goal is to improve lives and empower communities through bold innovations and interdisciplinary collaborations across research and outreach that advance the way we understand, treat and prevent depressive illnesses.

We are partnering with various University of Michigan departments or units to recruit several faculty positions, including those supported by endowed professorships, research professorships, and early career professorships. We are eagerly soliciting faculty applications from highly competitive candidates at the assistant, associate, and full professor levels. [Specific areas of focus](#) include precision mental health, digital technology, data science, and prevention of mental health problems; but, all work with the potential to impact depression is within scope.

The successful applicant will join a vibrant community of more than [200 faculty](#) across departments who are passionate about depression and bipolar research and care. Departments/units for this search include but are not limited to, anesthesiology, biostatistics, computational medicine and bioinformatics, epidemiology, internal medicine and its subspecialties, mathematics, neurology, psychiatry and psychology.

Required qualifications

- Ph.D. and/or M.D.
- Evidence of superlative scientific accomplishment and scholarly promise
- Depending on the field, evidence of teaching excellence

Candidates will be evaluated on a rolling basis until all positions are filled. Nominations, applications, and expressions of interest will be held in confidence, and references will be contacted only with the candidate's permission. Primary school and departmental affiliation(s) will be determined by the applicant's qualifications and preferences, and by relevance of the applicant's research program to departmental initiatives and themes.

How to apply

Your application package must include:

1. Cover letter addressed to Center Director, [Srijan Sen, M.D., Ph.D.](#), expressing interest in position and description of research interests and goals (up to 2 pages)
2. Curriculum Vitae

Please combine these materials in the order listed above into one PDF file before submitting. Any questions about the application process can be sent to EFDC-FacultyApplications@med.umich.edu
